

Daniel Cuevas Botero

Multimedia Engineer
Web Developer | UX-UI Developer

ABOUT ME

Multimedia engineer with experience in **web development** and **UX/UI design**, specialized in creating innovative solutions that improve user experience. I have developed application projects and virtual environments using modern technologies such as **HTML5, CSS3, JavaScript and PHP**. I managed to make a **mobile application** for learning the human skeletal system achieving the learning of students evaluated. Committed to continuous improvement, I seek to integrate knowledge in web services and network management to offer complete and adaptable solutions in digital environments.

- Possibility to change residence
- I have a Professional Card (COPNIA)

STUDIES

2019 - 2024 • Universidad de San Buenaventura Cali
IMultimedia Engineer

2022 - 2024 • Centro Cultural Colombo Americano
English B2 Certificate

PERSONAL PROJECTS

- **App Salon:** Web page that implements several integrations such as: Login, create account, reset password via emails, admin panel and user panel. Users will have the ability to schedule appointments with various beauty services and administrators will have the ability to create new services, delete appointments, update prices and services and read data from scheduled appointments. Technology used: **PHP, JavaScript, API, SQL, SCSS**
- **UpTask:** Web application that is able to manage projects and assign specific tasks to them, the user can change task statuses and delete them. I developed an API that gets the tasks, deletes them and notifies if there were errors in the creation of any task. Used Technology: **PHP, HTML, CSS, JavaScript, SASS, API**
- **Real Estate:** Real estate web that can be managed by creating, deleting, updating and visualizing within the interfaces. **PHP, SQL, SCSS, JavaScript, HTML5**
- **DevWebCamp:** Web application for project management, where an administrator can register events, conferences, speakers and gifts. Users can access through free or paid plans, the web has PayPal payments. Used Technology: **PHP, HTML, CSS, JavaScript, SASS, API, BEM**

WORK EXPERIENCE

Internship at Electojaponesa S.A.

July 2023 - January 2024 (6 months) - **Direct Supervisor:** Lucila Osorio 317 6451065
I made multimedia design supporting the internal communication of the company, improving the interpersonal relationships of employees and improving the quality of work with campaigns and activities using Illustrator and Microsoft Sharepoint services.

Web Master Freelancer at BioAseo S.A.S.

June 2024 - Currently

Responsible for optimizing the website through UX/UI practices, performance and SEO practices to improve website ranking and perform updates using php, HTML5, CSS technologies.

CERTIFICATES

- **Oxford Level Test (CEFR):** I have a certificate that assesses the level of English.
- **Scrum Fundamentals:** Validate your scrum knowledge to generate value through adaptive solutions to complex problems.
- **UX/UI Design + Figma:** I acquired UX/UI design skills to create innovative products and services, and become a professional UX/UI designer. I learned effective design techniques and how to apply them to create successful user experiences. In addition, I gained knowledge about web and mobile design using the Figma tool.
- **Complete web development HTML5, CSS3, JS AJAX PHP and MySQL:** I learned HTML and CSS methodologies such as Modules and BEM, understood how JavaScript, PHP and Fetch API works, developed CRUD applications with PHP and MySQL, also developed dynamic sites that use databases to store and retrieve information and added PayPal payments to websites.
